### Legal Actions

Every action or proceeding against an insurer for the recovery of insurance money payable under the contract is absolutely barred unless commenced within the time set out in the Insurance Act (for actions or proceedings governed by the laws of Alberta and British Columbia), The Insurance Act (for actions or proceedings governed by the laws of Manitoba), the *Limitations Act, 2002* (for actions or proceedings governed by the laws of Ontario), or other applicable legislation. ## CLAIMS

---

This section contains information about the payment of claims, the appropriate claim forms to use and the documents that are required to ensure that claims are paid promptly. Claim payments are accompanied by statements explaining how benefits have been determined according to the plan.

### How to Submit a Health Care Claim

**For drug claims**, 3sHealth would have already provided you with a prescription drug identification card. Present this card to the pharmacist with your prescription.

Before your prescription is filled, an Assure Claims check will be done. Assure Claims is a series of seven checks that are electronically done on your drug claim history for increased safety and compliance monitoring. This has been designed to improve the health and quality of life. Checks done include drug interaction, therapeutic duplication and duration of therapy, allowing the pharmacist to react prior to the drug being dispensed. Depending on the outcome of the checks, the pharmacist may refuse to dispense the prescribed drug.

**For all Healthcare claims** obtain a claim form from your participating plan sponsor or online at [www.3sHealth.ca](http://www.3sHealth.ca) or [www.canadalife.com](http://www.canadalife.com). Once you have completed and signed the form, attach the original receipts or invoices. Note that you must also submit the original prescription for those services and supplies that are identified as requiring a prescription from a physician. Also, if the claim is for medical supplies or equipment it is recommended that a report from the physician be included with the claim form stating a description, the purpose of the item and the recommended frequency of its use. Submit the form and original prescriptions, reports, receipts or invoices directly to Canada Life at the address shown on the back of the form.

**Note:** To ensure prompt claims service, any receipts should include:

- the name of the person receiving the service or treatment
- the date and the type of each service or treatment
- the charge for each date
- the prescription numbers for prescribed drugs and medicine
- the name of the drug or the medicine

### How to make an out-of-province/country claim:

There are special rules for claiming the costs of emergency treatment outside of your province or territory of residence or Canada.

For all medical expenses, you must contact the Travel Assistance provider at the time of the emergency. This will enable the Travel Assistance provider to co-ordinate payment directly with the hospital and/or medical provider involved. In addition, with your approval the Travel Assistance provider will co-ordinate payment with your Provincial Health Care plan.

If a medical provider or hospital bills you directly, send the bill along with your claim form to the Travel Assistance provider.

---

## CLAIMS

---

### How to Submit a Dental Claim

When you wish to submit a claim:

1. obtain a 3sHealth Dental Claim form from your participating plan sponsor or online at [www.3sHealth.ca](http://www.3sHealth.ca) or [www.canadalife.com](http://www.canadalife.com);
2. complete Part 2 of the claim form;
3. have the dentist complete the Dentist section (Part 1) of the claim form; and
4. submit the completed form to Canada Life at the address shown on the claim form.

### Co-ordination of Benefits

Benefit payments under the plan may be co-ordinated with the benefits provided by any other plan to provide up to 100% of the Eligible Expenses, as long as the total amount received from all sources does not exceed the amount of the actual expense incurred.

If you are a surviving spouse, submit the claim first to your plan, and second to this plan.

If you are a surviving dependent child, submit the claim first to the plan of the parent who has the first birth date in the year, and second to the alternate plan.

**If the alternate plan does not provide for co-ordination of benefits, all claims should be submitted to the alternate plan first.**

### Payment of Claims

All benefits will be paid to you unless Canada Life is directed otherwise.

### Deadline for Submitting Claims

Claims must be submitted within 120 days of the end of the calendar year in which the expense was incurred, or the services were performed.

For the purposes of all calculations made under this benefit provision, expenses for services and supplies are considered to be incurred when the items claimed for are received.

### Examination

Canada Life has the right to require the Insured Person to have a medical examination as often as reasonably necessary. Canada Life will choose the physician and cover the cost.

### Right to Recover

If Canada Life pays any benefits to you which you have the right to recover from any person or corporation, Canada Life reserves the right to work with you to recover those payments.

## EXTENDED HEALTH CARE BENEFITS

### Limitations (Continued)

- any treatment that has as its purpose the correction of temporomandibular joint dysfunction;
- the commission or attempted commission of any offence contained in the *Criminal Code*;
- services or supplies associated with a covered service or supply, unless specifically listed as a covered service or supply determined by us to be a covered service or supply;
- drugs administered during treatment in an emergency room of a hospital, or as an in-patient in a hospital and
- telephone and/or television during a hospital stay.

### Prior Authorization

In order to determine whether coverage is provided for certain services and supplies, we will maintain a limited list of services or supplies that require prior authorization.

Prior authorization is intended to help ensure that a service or supply represents reasonable treatment.

If the use of a lower cost alternative service or supply represents reasonable treatment, an insured person may be required to provide medical evidence why the lower cost alternative service or supply cannot be used before coverage may be provided for the service or supply.

### Health Case Management

Health Case Management is a program recommended and approved by us that may include but is not limited to:

- consultation with the insured person and his attending physician to gain understanding of the treatment plan recommended by the attending physician;
- comparison with the insured person's attending physician of the recommended treatment plan with alternatives, if any, that represent reasonable treatment;
- identification to the insured person's attending physician of opportunities for education and support; and
- monitoring the insured person's adherence to the treatment plan recommended by the insured person's attending physician.

In determining whether to implement Health Case Management, we may assess such factors as the service or supply, the insured person's medical condition, and the existence of generally accepted medical guidelines for objectively measuring medical effectiveness of the treatment plan recommended by the attending physician.

### Health Case Management Limitation

We can, on such terms as we determine, limit the payment of benefits for a service or supply where:

- we have implemented Health Case Management and the insured person does not participate or cooperate; or
- the insured person has not adhered to the treatment plan recommended by his attending physician with respect to the use of the service or supply.

### Health Case Management Expense Benefit

Expenses associated with Health Case Management may be paid for by us at our discretion. Expenses claimed under this benefit provision must be pre-authorized by us.

## EXTENDED HEALTH CARE BENEFITS

---

### **Designated Provider Limitation**

For a service or supply to which prior authorization applies or where we have recommended or approved Health Case Management, we can require that a new service or supply be purchased from or administered by a provider designated by us, and:

- limit the covered expenses for a service or supply that was not purchased from or administered by a provider designated by us to the cost of the service or supply had it been purchased from or administered by the provider designated by us; or
- decline a claim for a service or supply that was not purchased from or administered by a provider designated by us.

### **Patient Assistance Program**

A patient assistance program means a program that provides assistance to persons with respect to the purchase of services or supplies.

We can require an insured person to apply to and participate in any patient assistance program to which the person may be entitled. Further, we can reduce the amount of a covered expense for a service or supply by an amount of financial assistance the insured person is entitled to receive for that service or supply under a patient assistance program.

## HEALTH CARE MISCELLANEOUS PLAN PROVISIONS

### **Lost or Stolen Pay Direct Drug Cards**

Lost or stolen cards should be reported immediately, to Canada Life by telephone or in writing. Upon notice, a replacement card will automatically be issued with a new issued number. In most cases, the pharmacist will not honour the lost or stolen card because the name on the prescription will be different from that on the card. ### Important Notice About Reimbursement

You are encouraged to access a copy of the current *Schedule* from [www.3shealth.ca](http://www.3shealth.ca) or by phoning 3sHealth and present it to your dentist each time you have dental services performed.

To receive reimbursement for a dental expense, your coverage must be in effect on the date of your dental treatment.

Canada Life reserves the right to determine the amount of any dental benefit payable under the plan by taking into account possible alternative procedures, services or courses of treatment which are based upon accepted dental practice.

For orthodontic claims, payment for charges incurred will be based on one of the following:

- (1) If an estimated cost of treatment is used in place of an itemized statement, benefits for the insured cost of the charge will be payable on a monthly or quarterly basis as billed by the dentist. The average monthly benefit will be the total estimated cost of treatment, less the initial cost (case diagnosis, initial appliance cost, treatment plan) divided by the number of months in the treatment plan as specified by the dentist.
- (2) If a separate estimate of the cost of the initial appliances is included, the first payment will be an amount equal to the insured cost of the appliance. The remainder of the payments will be calculated in accordance with the terms of clause (1) above.
- (3) If a statement is submitted for each treatment as the charge is incurred, payment for the insured cost of the charge will be made as such charge is incurred.
- (4) Notwithstanding anything to the contrary in this provision, if an insured described above incurs charges described in another section of this provision as part of a treatment described in the Level IV section, then such charges will be deemed to have been incurred under this Level IV section for the purpose of calculating benefit amounts and maximum benefit amounts.
